Jantar appoints Dr. Ishiung Wu to its advisory board

June 4, 2009

TSX-V: JR

Vancouver, B.C., June 4, 2009 – Jantar Resources Ltd. (TSX-V: JR) (“Jantar” or “the Company”) is pleased to announce the appointment of Dr. Ishiung Wu to its advisory board effective immediately. Dr. Wu has served over the last 10 years as a Board Member, Officer and/or Director to a number of public and private companies, including High Plains Uranium which merged with Energy Metals Corporation (now Uranium One Inc.) and General Minerals Corporation (TSX: GNM). From 1974 to 1992, Dr. Wu worked for Kennecott (now a subsidiary of Rio Tinto PLC) and the North and South American mineral subsidiaries of Exxon Mobil and Chevron in various capacities, including Exploration Manager for Chevron Chile. Dr. Wu joined Chevron in 1980 when it was active in Uranium and Lithium exploration.

Dr. Wu was a member of a task force in Chevron Resources in the 1980s charged with recommending Platinum Group Metals (“PGE”) prospects that had similar geologic characteristics to the Bushveld-Still water type of PGE Deposits. In the 1990s, he discovered some of the PGE layers at the Lake Owen Intrusive Complex in Wyoming.

Dr. Wu holds a M.A. (1971) and Ph.D. (1975) in economic geology-geochemistry from Harvard University, where he was a Teaching Fellow in Geology from 1971 to 1973. He is also a Fellow of the Society of Economic Geologists.

Tony M. Ricci, CEO, stated, “We are pleased to welcome Dr. Wu to our advisory board as the Company begins assembling potential world-class metal assets.”

Jantar is a public company trading on the Toronto Venture Exchange under the ticker: JR.
